

Premier Waste UK PLC

Environmental Policy Statement

Premier Waste UK Plc is a waste management company based in Birmingham. Premier Waste offer tailor-made waste packages to the public and private sector, handling all waste removal, recycling and site cleanliness issues.

Premier Waste recognises the responsibility it has to reduce the negative effect the company's business activities have on the environment. The company is developing an Environmental Management System (EMS) to meet the requirements of BS EN ISO14001 to reinforce the company's commitments of the prevention of pollution and continual improvement in environmental performance. The EMS will be used as a vehicle for the setting, measuring and monitoring of environmental objectives to drive continual improvement.

Premier Waste is committed to operate in accordance with all applicable environmental legislation and regulations and other requirements to which the organisation subscribes. The company is committed to the prevention of pollution from company activities and actions and will ensure that all activities carrying a risk of pollution in any form are identified and either eliminated, or controlled effectively through the adoption of appropriate control methods.

Premier Waste will continue to ensure the ongoing segregation of waste at their transfer stations to ensure re-usability and recyclability of waste is optimised. Premier Waste will also monitor energy and material usage across the site to establish a baseline for setting future reduction targets and improving process efficiencies. Through continual improvement objectives, the company will seek to improve the environment in which it operates, through protecting the environment from emissions of pollution and ensuring the site is regularly maintained.

Premier Waste will take account of concerns of interested parties such as regulators, shareholders, employees and the public, ensuring these are recorded and dealt with promptly.

Premier Waste will ensure that all people that work for and on behalf of the company are aware of this policy and are trained in their environmental responsibilities.

The company supports the adoption of similar standards and commitment by its customers and suppliers.

Copies of this policy statement are freely available to the public and other interested bodies.

This Policy will be implemented within the framework of an environmental management system to which the company will seek certification by October 2008. The policy will be reviewed annually, and amendments may be made as stipulated by legislation, changes in company activities or external requirements.
